

SAMARPAN SCIENCE AND COMMERCE COLLEGE

Botanical Excursion

The Department of Botany organised an enriching botanical excursion for the students of B.Sc. Semester 5 to Serenity Library and Botanical Garden, Ahmedabad on 6 August 2026 along with faculty Ms. Sweta Sadhu.

Guided by Dr. Santosh Yadav and Mr. Zuber, students explored a diverse collection of indigenous and exotic plant species while learning about their botanical characteristics, ecological importance, ethnobotanical significance, and traditional uses.

The interactive field visit offered valuable hands-on learning, connecting classroom concepts with real-world plant identification, biodiversity, conservation, and sustainable use of plant resources.
